GAS separation & purification

Index to Volume 10 (1996)

Number 1 March pp 1–88 Number 3 September 141–196
Number 2 June pp 89–140 Number 4 December 197–256

Article Index

Number 1 March

Degradation of aqueous diethanolamine solutions by carbon disulfide
O. F. Dawodu and A. Meisen 1
Equilibrium concentration profiles of species in CO_2–alkanolamine–water systems
M. Z. Haji-Sulaiman, M. K. Aroua and M. I. Pervez 13
Dynamics of high purity oxygen PSA
S. Hayashi, M. Kawai and T. Kaneko 19
Adsorption parameters for strongly adsorbed hydrocarbon vapours on some commercial adsorbents
E. Alpay, N. Haq, L. S. Kershenbaum and N. F. Kirkby 25
Gas solubility maxima in mixtures of physical absorbents and chemisorbents
I. L. Leites, J. G. Karpova and V. M. Berchenko 35
Modeling of gas absorption into turbulent films with chemical reaction
M. R. Riazi 41
Modelling endothermic reactions in a compound membrane reactor
S. Assabumrungrat and D. A. White 47
A study on catalytic membrane reactors for water gas shift reaction
A. Basile, E. Drioli, F. Santella, V. Violante, G. Capannelli and G. Vitulli 53
Performance of a parallel passage adsorbent contactor
D. M. Ruthven and C. Thaeron 63
Performance of a hollow fibre membrane unit in oxygen-enriched air production
C. Fabiani, L. Bimbi, M. Pizzichini and L. Santarossa 75
Adsorption of methane, ethane and ethylene on molecular sieve zeolites
R. W. Triebe, F. H. Tezel and K. C. Khulbe 81
Ethylene recovery from the gas product of methane oxidative coupling by temperature swing adsorption
N. A. Baronskaya, L. S. Woldman, A. A. Davydov and O. V. Buyevskaya 85

Number 2 June

Carbon-based materials for gas separation, purification and clean up
G. Q. Lu and M. Rostam-Abadi 89
Natural gas storage with activated carbon from a bituminous coal
J. Sun, M. J. Rood, M. Rostam-Abadi and A. A. Lizzio 91
Applications for activated carbons from waste tires: natural gas storage and air pollution control
T. A. Brady, M. Rostam-Abadi and M. J. Rood 97
Characterisation of sewage sludge-derived adsorbents for H_2S removal. Part 2: Surface and pore structural evolution in chemical activation
G. Q. Lu and D. D. Lau 103
Single bed pressure swing adsorption process to generate high purity nitrogen
A. I. LaCava and N. O. Lemcoff 113
Removal of VOCs from humidified gas streams using activated carbon cloth
M. P. Cal, M. J. Rood and S. M. Larson 117
Activated carbon cloth adsorption–cryogenic system to recover toxic volatile organic compounds
M. Lordgooei, K. R. Carmichael, T. W. Kelly, M. J. Rood and S. M. Larson 123
Fabrication of carbon fibre composites for gas separation
G. M. Kimber, M. Jagtoyen, Y. Q. Fei and F. J. Derbyshire 131
Process effects on activated carbon performance and analytical methods used for low level mercury removal in natural gas applications
J. D. McNamara and N. J. Wagner 137

Number 3 September

Extension of the linear driving force–dusty gas model approximation to include surface or micropore diffusion
A. M. M. Mendes, C. A. V. Costa and A. E. Rodrigues 141
Measurement and analysis of oxygen/nitrogen/5A-zeolite adsorption equilibria for air separation
O. Talu, J. Li, R. Kumar, P. M. Mathias, J. D. Moyer, Jr and J. M. Schork 149
Adsorption equilibria and rate parameters for nitrogen and methane on Maxsorb activated carbon
M. A. Sheikh, M. M. Hassan and K. F. Loughlin 161
Rapid assessment of thermally coupled side columns
A. J. Finn 169
UNIFAC activity coefficient derivatives
P. Pöllmann and M. Löbbecke 177
A simple model for prediction of acid gas solubilities in alkanolamines
M. L. Posey, K. G. Tapperson and G. T. Rochelle 181
Formation of hydrogen permselective silica membrane for elevated temperature hydrogen recovery from a mixture containing steam
B.-K. Sea, M. Watanabe, K. Kusakabe, S. Morooka and S.-S. Kim 187

Number 4 December

New correlation for liquid hold-up of sodium citrate buffer solution in a Raschig ring packed column
I. Bágyi, E. Márki and E. Békássy-Molnár 199
Analysis of ZLC technique for diffusivity measurements in bidisperse porous adsorbent pellets
J. A. C. Silva and A. E. Rodrigues 207
Investigation of vapour–liquid equilibrium of non-ideal multicomponent systems
P. Pöllmann, M. H. Bauer and E. Blaß 225
Membrane reactor for water gas shift reaction
A. Basile, A. Criscuoli, F. Santella and E. Drioli 245
